Professional Summary

Proficient in front-end web development technologies, including HTML, CSS, JavaScript, ReactJS, and GSAP. I possess a strong understanding of responsive web design principles and leverage these skills to create dynamic and engaging user interfaces. My expertise encompasses building complex web applications using ReactJS, animating user interfaces with GSAP, and ensuring cross-browser compatibility through meticulous CSS implementation. I am adept at writing clean, maintainable, and efficient code, consistently striving for optimal performance and user experience. My skills enable the creation of visually appealing and highly functional websites and applications. I am a dedicated and results-oriented developer committed to delivering high-quality work.

Work Experience

Intern at Academor

jun 2022 - may 2024

This application facilitates robust financial management by enabling users to define and enforce budgetary limits. It meticulously tracks recent transactions, providing a comprehensive record of financial activity. Furthermore, the system presents this transactional data in a clear and easily interpretable graphical format, allowing for insightful analysis of spending patterns and budget adherence. This visualization tool empowers users to make informed financial decisions and maintain effective control over their resources. The application's comprehensive features promote efficient budgeting and transparent financial oversight.

Projects

Ex Tracker

[Link to Demo](#)

This application manages financial resources by defining and enforcing budgetary limits. It meticulously tracks recent transactions, providing a comprehensive record of all financial activity. Furthermore, it leverages data visualization through graphical representations, offering a clear and concise overview of spending patterns and budgetary adherence. This facilitates informed financial decision-making and allows for proactive budget management. The system's robust tracking and reporting capabilities enable users to monitor their finances effectively and identify potential areas for improvement or cost savings. The user-friendly interface ensures ease of navigation and data accessibility.

Education

ZPHS High School - 69%
